e, and not by shadow.

Dutch Flat Enquirer.

E. B. ROUST, : : : : EDITOR.

THURSDAY, : : OCT. 1, 1863

AUBURN, Sept. 25th, 1863.
FRIEND ROUST:—In your last issue you say "the officer whose duty it is to provide 'Dog Tags,' has entirely neglected his duty." In this you err; as every person who has applied to the proper officer, or at Wells, Fargo & Co.'s office with their regular three dollars, has been accommodated. The tags were in my possession before the ordinance took effect.

Respectfully yours, B. F. MOORE.
We accept of your apology, Frank. It was not our intention to unjustly accuse any one of a dereliction of duty, but there is something wrong somewhere, and we intend hammering at this matter until it is righted. We embrace the first opportunity to render you blameless. At the time of writing the article referred to we were under the impression that the Marshal or Watchman had that duty to perform, we since find on reading the ordinance that the Treasurer is merely required to sell the tags on application of parties desiring to buy, and that the Watchman has nothing to do in the matter. But we also find that any one may take up the dogs running at large, and that it is "made the duty of the Marshal to take possession of such dog or dogs so at large." Now, the people are being called upon for their property and other taxes; some who have favorite dogs have complied, we hear, with the ordinance by paying for tags; others, not liking the tariff imposed upon their canine friends have utterly neglected to do so, while the dogs have all the privileges of the town. This is not right; if the ordinance is any account, and we believe it is, we have a right to ask that it be enforced equally on all; and to complain of the Marshal or any body else—whose duty it is to execute our local laws—for a dereliction of duty. We would suggest the propriety of the Board of Trustees passing an ordinance making it the duty of the Marshal to shoot every dog he may find running at large in the limits without a tag. Dogs are sometimes very fleet, and the Marshal will find it rather difficult to catch some of them. However, the ordinance now in force should be complied with, the Marshal is allowed three dollars for every dog he may take up, and he should be made pay a like amount for every one that is a large space of forty-eight hours. This would insure a strict compliance with the ordinance by the people and a faithful discharge of the duty imposed upon the Marshal.

WATER—LIBERAL.—We are glad to learn that the ditch owners of this place have determined to reduce the price of water from 15 to 12 cents per inch. This action on the part of these gentlemen is highly commendable and liberal; it shows that they properly appreciate the patronage that has been bestowed upon them for the past two or three years. As they become able, they design reducing the price of water, until they get it to such a figure that almost any ground they are able to run water to will yield wages. We have no doubt this will be gratifying news to the miners in this place and vicinity, as it will enable many to prosecute their labors that heretofore held back for fear of becoming too deeply involved.

We consider that we cannot say too much in praise of the action of our water companies in reducing the price of water at this time; and they deserve the praise and thanks of every individual in our community, for, as the country is dependent upon the success of the miner, so is the miner—in this district—dependent upon the ditch owners, and any action taken by the latter must materially effect—for good or bad—the interests of every class of our small community. We have seen in the present instance, that our interests are well considered by these gentlemen who, seeing the benefit that would result from their course, have, unsolicited, reduced the price on water. We are glad to be able to say that we have yet a few men amongst us whose souls rise higher and above the sole consideration of the almighty dollar.

THE little "whiffle" that makes a hebdomadal appearance in Auburn, is just now engaged in the attempt to blow the Supervisors of this county sky-high, and in this effort it spares nothing but brains and a requisite amount of decorum to accomplish its self-imposed task. The editor, by implication, accuses the members of the Board with having appointed four Democrats to ease Republicans. We were not aware the Board appointed five to act at any one precinct; if they did, give them fits. If we are to take the whole article with the same degree of allowance that a charitable suggestion would prompt for a portion of it, we rather incline to the opinion that the efforts of our new fledged editor will result in the same way as did the effort of the old dame when she endeavored to combat the waves of the Atlantic with a broom handle. You are throwing away your time in endeavoring to defeat Mr. Fannon after the election.

WEATHER.—The weather in this place has commenced to cool off; the days are quite pleasant, and the nights cool, making two or three blankets agreeable. The clouds portended a storm last week, but as yet we have not been refreshed, proving the old saying, "All signs fail in dry weather." It cannot be long, in the natural course of things, before winter will set in, when we may expect a long and severe one.

FOR THE LADIES.—We have received from Mr. Stratman, news agent of San Francisco, a copy of Madame Demore's Mirror of Fashion, accompanying which is a large sheet filled with braid and embroidery patterns, together with a double-sheet of colored fashion plates. This is a magazine gotten up expressly for the ladies for the purpose of giving the latest styles, from a ball room dress to a baby-protector. All the feminines should have one, which may be had by forwarding your orders to J. Stratman, San Francisco.

A NUISANCE.—The liberty attempted to be given to the Chinese expropriators of occupying any dwelling which may be owned by a person who is willing to disregard every feeling of self-respect or consideration of decency for others, is a nuisance that should not be tolerated by any people who have a spark of manly feeling about them. It is outrage to consent that a lot of these be placed next door to a respectable family in which there are children from sixteen down to two years of age of both sexes. Can a man be considered a good citizen who is careless of the moral surroundings, or who by his connivance places in close proximity to the innocent children—the present rising generation—that which is to poison their minds, corrupt their habits, and degrade them morally to the condition of beasts? We very much doubt it. And yet we see men who occupy respectable positions in society, who, for the sake of a few paltry dollars, are willing to do all this; and not only this, there are others to be found, without the incentive of money-making, who are willing to sanction the conduct of their fortunate fellows in this outrage upon the feelings of a respectable family and innocent children. Do they forget the feelings of the members of their own family, or the deep resentment they would feel were such nuisances crowded upon an innocent sister, a respected mother, or a beloved wife? How far would their pet argument serve them then when reminded that "a man has a right to do as he pleases with his own property?" A man has no such exclusive right, and it is not granted him either morally or legally. The rights of others are equal and co-existent with his own; and he is required to consult the rights of others before he proceeds to act in a manner that is calculated to infringe upon the rights of his neighbor. It is presumed that a man would be allowed to keep a ton of gunpowder in the business part of our town, where, by an unlucky spark hundreds of souls would be hurried, unprepared into the presence of their maker? It is to be hoped there are none amongst us so foolish as to contend for this. But they say it is right—for five dollars per month per head—to corrupt the minds and hearts of innocent children by "doing with their property as they please;" these children are to be deprived, the families of our citizens are to be outraged in their feelings, the most beautiful portion of our town ruined, and the character of our people for morality and decency blasted that an individual or two may be peculiarly benefited. "O shame! where is thy blush!"

STRIKE.—We understand that the hands employed on the Pacific Turnpike took it into their heads a week ago that the bank from which they had hitherto received their wages was about to weaken; quit work, struck, refused to delve, and while anxiously awaiting the promised funds, a disagreement originated between the Celts and Celestials in which a general resort to picks, shovels, crow-bars, axes, clubs, rocks, etc., was had, and a regular battle royal ensued. The battle was stubborn and well contested; but owing to the superior numbers of the Celts the Celestials were compelled to fall back, which they did in good order, and are waiting for reinforcements on one of the highest hills on the Yuba. They are in good spirits, being secure from the approaches of the enemy.

DUELS.—Duels appear to be the rage among the people at Washoe. On Monday last Tom Fitch and J. T. Goodman, both editors of papers printed at Virginia City, set themselves up for each other to shoot at: Fitch was shot in the knee at the first fire, which satisfied him perfectly as to any doubts he may have entertained previously as to the gentility of his opponent. Another affair of a similar nature is on the tapis, two belligerents recently left Virginia City to meet in mortal combat, when one was found to be armed with a derringer, and the other with a knife, when the seconds interfered and postponed the contemplated slaughter. This barbarous habit of resorting to deadly weapons for the adjustment of every petty difference between individuals is to be greatly regretted.

THE PLACE.—It is said by those who frequent the place, that Pony Jones' Saloon is the best place in town to get a real, unadulterated, simon pure drink, his brandies being old, whiskey pure, and wines and syrups such as emanate from the most celebrated presses and manufactories. It is reported that he has two billiard tables in the same house. The curious can satisfy themselves on this point.

FRUIT! FRESH FRUIT.—Our people can now supply themselves with an excellent article of grapes of the choicest varieties, by applying at Burekhalter's. This fruit will be sold at ranch prices, and can be had in any quantities, from one pound to a ton. Those who have not been able to supply themselves with the different varieties of fruit for preserving purposes can do so now by calling as above.

THE REBELS DISHONORING THEIR OWN CURRENCY.—The Knoxville Register mentions, "as a singular fact, that Confederate bonds are worth more in England than at home. Here Confederate money is almost constantly depreciating. It is difficult to make a purchase, however small," the Register continues, "with-out being reminded by the seller of the great depreciation of our money. From the man who sells you a horse for six or eight hundred dollars down to the shop keeper who sells you an almanac for twenty-five cents, all pile on an enormous price, and, by way of apology, give the currency a kick."

But what do the rebels propose to do about it?—*Soc. Union.*
That is none of your business. If you were as sincerely in favor of the whole Union as you profess, the Rebel currency would not trouble you. Probably you think of again taking your post as assistant editor of the Mobile Advertiser, where you can call northern men, "mackerel catchers," "dough-faces," "white-livered wretches," etc., in order to prove to them that you have ceased to respect the land of your birth. Oh! you hypocrite!

THE Louisville Journal is out advocating the election of Vallandigham.

THE LATE BATTLES NEAR CHATTANOOGA.

The following accounts of the late battles near Chattanooga between the Union forces under General Rosecrans and the Rebel troops under Generals Longstreet and Bragg, are taken from Union and Rebel sources:

FORTRESS MONROE, Sept. 25th.
The Richmond *Whig* of the 22d claims a victory in Northern Georgia for Bragg, but adds: "We suppress exultation at the sight of what remains to be done, and the possibility of losing all that has been gained by the fight. To complete the work, situated as Rosecrans is, a victory that don't disperse and capture his whole army is a last opportunity. If he is permitted to hold Chattanooga, then our victory will be without profit, and we have only to mourn that so many brave men have died in vain. Rosecrans must not only be beaten in battle, but must be destroyed or driven from East Tennessee. Otherwise, the battle had as well not been fought. If this stronghold is not wrested from him now, it will hardly be hereafter. He may at any moment strike at the very vitals of the Confederacy. He holds a region pestilential with disaffection, that needs only the presence of a Yankee army to ripen into full blown treason. He holds the country that must supply wheat for our army. Should he then, in the face of our moment strike at the very vitals of the Confederacy. He holds a region pestilential with disaffection, that needs only the presence of a Yankee army to ripen into full blown treason. He holds the country that must supply wheat for our army. Should he then, in the face of our moment strike at the very vitals of the Confederacy. He holds a region pestilential with disaffection, that needs only the presence of a Yankee army to ripen into full blown treason. He holds the country that must supply wheat for our army. Should he then, in the face of our moment strike at the very vitals of the Confederacy. He holds a region pestilential with disaffection, that needs only the presence of a Yankee army to ripen into full blown treason. He holds the country that must supply wheat for our army. Should he then, in the face of our moment strike at the very vitals of the Confederacy. He holds a region pestilential with disaffection, that needs only the presence of a Yankee army to ripen into full blown treason. He holds the country that must supply wheat for our army. Should he then, in the face of our moment strike at the very vitals of the Confederacy. THE GARDEN AND KITCHEN.

SUBSTITUTE FOR APPLE SAUCE.—A lady correspondent communicates the following bit of information, obtained where she "last took tea."

"A dish of what I took to be preserves was passed to me, which upon tasting I was surprised to learn contained no fruit. The case with which it was prepared, and the trifling cost of its materials, not my tasting apparatus, deceived me as it is not usually wont to do. It is, emphatically, a tip-top substitute for apple sauce, apple butter, tomato preserves, etc. It is prepared as follows: Moderate heat a pint of molasses from five to twenty minutes, according to its consistency, then add three eggs thoroughly beaten, hastily stirring them in; continue to boil a few minutes longer, and season with nutmeg or lemon."

STRENGTHENING JELLY.—One ounce of isinglass, one ounce of gum arabic, one ounce of sugar candy, dissolved in a half pint of port wine. Let it stand all night, and (add one pint more if you like it strong) next, let it simmer on the fire till well dissolved, then strain and keep for use, (in this case the preparation assumes the jellie appearance). If half-a-pint of water be added, before simmering, the usual jelly appearance is produced.

SEED-CAKE.—Beat one pound of fresh butter to cream, add one pound of loaf sugar, and beat both together until they become white, then add two eggs, beat for some time, add two more, and so on until you have added twelve. Have a pound and three quarters of flour sifted, mix among it half a pound of orange peel and one pound of citron peel cut small; half a pound of sweet almonds, blanched and cut small, then mix all together, but stir it as little as possible. Have a hoop or mould prepared, put the cake in, smooth with a knife, and scatter a few carraways at the top. Bake two hours and a half in a moderate oven.

TO INCREASE HOME-MADE BREAD.—A great increase on home-made bread, even equal to one-fifth may be produced by using bran-water for kneading the dough. The proportion is three pounds of bran for every twenty-eight pounds of flour, to be boiled for an hour and then strained through a hair sieve.

BISCUITS FOR INVALIDS.—Mix three-quarters of a pound of butter in a pint of new milk, and pour it on three-quarters of a pound of loaf sugar; when cool, put in a half a desert spoonful of yeast, and a whole carraway seed; add flour sufficient to make it into stiff paste, to roll out very thin; prick it end cut it with a tin shape and bake by a moderate fire.

CHOCOLATE CREAM.—Take half a pound of chocolate, break it into small pieces, one ounce of white wax and half an ounce of spermaceti. Let these ingredients be all melted together over a slow fire, and then beat until they are cold. It will require about an hour to beat them sufficiently, when it should be like cream, not granular. An ounce of honey may be added, and will be liked by some persons, but it prevents its being beautifully creamy.

PLAIN PLUM PUDDING.—Chop one pound of stout very fine—as fine as dust. Stone one pound of fine plum raisins. Wash, pick and dry one pound of currants. Beat up thoroughly the yolks of eight eggs, and whites of four, add half a pint of milk, beat them together, and stir in gradually one pound of flour. Then mix in stout, spice, the fruit and as much more milk as will be necessary to make it thin enough but it should remain moderately thick. It is well to have a pint and a half of milk ready, but most likely rather less than a pint will suffice. For spice, mix a nutmeg grated, a teaspoonful of ground ginger, and the same of cinnamon. Tie the pudding in a cloth, or put it into a shape, and let it boil five hours.

MUFFINS.—Take of flour, one quart; warm milk and water, one pint and a half; yeast, a quarter of a pint; salt, two ounces; mix for fifteen minutes; then further add flour, a quarter of a peck, make a dough, let it rise one hour, roll it up, pull it into pieces, make them into balls, put them in a warm place, and when the whole dough is made into balls shape them into muffins, and bake them on tin; turn them when half done, dip them into warm milk and bake to a pale brown.

TO ICE A CAKE.—Beat up the whites of five eggs to a froth, and put to them a pound of double-refined sugar, powdered and sifted, and three spoonfuls of orange-flower water and lemon juice. Keep beating it all the time the cake is in the oven, and the moment it comes out ice over the top with a spoon. Be careful to keep the sugar clean.

TO MINCE BEEF.—Mince the underdone part fine, with some of the fat; put into a stewpan a small quantity of onion, a little water, pepper and salt; boil it until the onion is quite soft; then put in a little gravy and the mince. A few minutes will dress it, but do not let boil. Have a small hot dish with sippets, of bread toasted ready, and pour the mince into it. If a little acidity is liked, a tablespoonful of shalot vinegar may be used instead of the raw onion.

TISY CAKE.—Arrange some little square cakes in a dish, set them full of small spikes of almond until each one looks like a hedge-hog, and feed them with sweet wine until they can take up no more. Pour a little custard over them, and decorate with apricot or any bright colored preserves. The leche creme and tisy cake match each other, corner ways, capitally, and are generally very popular.

CREME A LA VANILLE.—Boil a stick of vanilla in a pint and a half of rich new milk until it is highly flavored, take out the vanilla and sweeten the milk to taste. Beat up thoroughly the yolks of six eggs, and the white of one, and gradually mix in the milk, stirring them all the while. Then cook the creme (in a bain marie if convenient), until it is thick enough. If the vanilla be carefully dried it will serve for several times, provided it be good.

THE POLL EVIL IN HORSES.—Some persons regard the poll evil as incurable. It is sometimes called fistula. No matter how long the sore has been running, it can be cured in a brief time, and at a cost not exceeding ten cents.—One dose of muriatic acid will be sufficient to effect a radical and permanent cure of the most stubborn fistula. The sore should be first thoroughly cleansed by some abstergent fluid, and for this purpose pure water is perhaps as valuable as anything that can be used, and drop eight or ten drops of the acid in twice a day till it has the appearance of a fresh wound; then wash clean with soap suds made of Castile soap, and leave it to heal, which it will speedily do if the acid has been used long enough. Should it, however, heal slowly, apply the acid a second time, and in the manner above described, taking care to wash out the pipe thoroughly, and it will be found an infallible remedy in the most inveterate diseases of this sort; but it must be remembered that in order to do so, the acid must be applied till the corrupt or diseased flesh is all burned out.—*German Town Telegraph.*

COAL OIL FOR FRUIT TREES.—A gentleman formerly connected with coal oil business in this city, tells us that several years ago, in taking a lot of sample bottles of oil a journey for exhibition, he accidentally had a bottle broken, saturating the sawdust in which the bottles were packed. When he arrived at his stopping place, he put the saw dust at the foot of the plum tree, it being about the time of blossoming of the plum trees. The result was watched, and it turned out that the curculio which ravished the other plum trees in the orchard gave this one a wide berth, and the plums were saved to ripen. This circumstance led to further experiments, with like favorable results. The sawdust thus saturated—which can be done with the clearest kind of coal oil, retains the odor for a long time, which is offensive to the fastidious tastes of the little Turk. The borer also will not pass his ginslet into the trunk of a tree which is encircled with this stuff.—*Ohio Farmer.*

It is amusing to hear a gray-headed old man, who amassed his fortune in his younger days by keeping a tipping shop, now say he would, had he power, imprison every man on whose premises a drop of the poison could be found.

DILIGENCE is the mistress of success. **FORTUNE** and the sun, make insects shine. **LANGUAGE** is gold leaf, to blazon our knowledge and cover our ignorance.

OUR DEVIL says he envies the Printer who has a share of Poetry in his composition.

The only Tories that the United States have been in the habit of encouraging—Termites.

An angry cook, was seen, the other day, blowing up the fire, because it would not burn.

A crusty old curmudgeon says, that the bloom of a woman is the *lucet plus ultra* of fashion.

ONLY those who have thoughts like lightning deserve to have a voice like thunder to utter them.

WIRE ROPE: Is 75 Per Cent. CHEAPER! THAN ANY OTHER KIND OF ROPE—WHY? BECAUSE, Compared with any other Rope of equal strength, it is from FOUR to SIX TIMES MORE DURABLE!

BECAUSE, it is FORTY per cent LIGHTER! BECAUSE, it is less than ONE-HALF the Diameter, and only ONE-SIXTH the Bulk!

BECAUSE, it is FIVE TIMES the strength of the same size of the HEMP ROPE! BECAUSE, it does not STRETCH or SHRINK, in dry or wet weather!

BECAUSE, it does not ABSORB WATER, and double its original WEIGHT! BECAUSE, it is as PLIABLE as the other rope of equal strength.

Wire Rope is the ONLY KIND of Rope that can be used to ADVANTAGE, for hoisting from deep shafts and inclined planes, for long Pump Ropes, Derrick Ropes, Ferry Ropes, &c. &c. Those who are once given our Wire Ropes a trial will USE NO OTHER, at any price.

Circulars, the real scales of weights and strength prices, testimonials, &c., will be forwarded by addressing the manufacturers, or their agents through out the State.

A. S. HALLIDIE & CO.,
412 Clay street, San Francisco.

AMERICAN EXCHANGE,
SANSOME STREET,
Opposite the American Theater,
San Francisco.

S. H. SEYMOUR, Proprietor.

THE UNDERSIGNED, LONG CONNECTED with the establishment as Book keeper, begs leave respectfully to inform the old patrons of the house, and the public generally, that he has leased from Mr. Bailey Sargent,

THIS MAGNIFICENT ESTABLISHMENT, which will hence be entirely under his management and control, and where he will be pleased to see his old friends and the traveling public. He flatters himself that his experience in the business, and his long acquaintance with the people of California, will be a guarantee that no one will leave his house dissatisfied, and he pledges himself to spare no pains or expense in providing every means for the comfort and satisfaction of his guests.

THE AMERICAN EXCHANGE is well known to the people of California, that it seems almost unnecessary to say anything in praise, either of the building or its location. The Proprietor will only remark that it is inferior to no house in the State in all the requirements of a FIRST CLASS HOTEL, being in a central location and easy of access from all parts of the city. The ROOMS are large and WELL VENTILATED, and furnished with Spring Mattresses. Water has been introduced into all parts of the house.

BATH ROOMS on the premises for the convenience of families. Two Coaches are attached to the Hotel to convey passengers to and from the streets.

THOMAS BOYCE'S
ADVERTISING AGENCY.
North-east corner of Montgomery and Washington streets, San Francisco. Agent for the following papers:

Enquirer, Dutch Flat, Butte Record, Oroville, Republican, Shasta, Sierra Citizen, Donnellville, Tribune, San Jose, Placer Herald, Auburn, Union Democrat, Sonoma, San Andreas Independent, Amador Sentinel, Jackson, Mountain Messenger, La Porte, Crescent City Herald, Mariposa Democrat, Pacific Sentinel, Santa Cruz,

MISCELLANEOUS ADVERTISEMENTS.

HALL'S SARSAPARILLA, Yellow Dock and Iodide of Potass.

This celebrated preparation has stood the test of six years in the California public—who are justly considered as a community the most intelligent in the world—during which period we are proud to say it has given more than satisfaction—it has become the household remedy for Californians particularly, who, from much exposure, bad food, imperfect shelter and irregular habits, suffer more from

RHEUMATISM Than any community in the world; and we are safe in saying that as a rule, California Rheumatism cannot be cured thoroughly without the use of

HALL'S SARSAPARILLA. It is the only preparation that will cure Rheumatism, as thousands can testify who have tried the medicines of the best Doctors in the country, without receiving any benefit therefrom. It cures it gives immediate relief when taken as per directions on the bottle.

FEMALES are delicate health would do well to try the virtues of this remedy, as it secures a most beneficial influence upon the vascular system not obtained by any other remedy. It quickly removes from the blood and other fluids the impurities of unhealthy secretions, which are the cause of diseases, such as Scrofula, Ulcers, Boils, Blisters and Pimples on the face and body, Humors, Pustules, Sores, Tetter, Rose and Erysipelas, Tetters, Head, Swelled Neck, Liver Complaint, Lumbago, Chronic Sore Eyes, Gout, Cancer, Enlargement of the Ovaries, and diseases of the Heart, are cured by the use of this truly valuable medicine.

It acts like a charm, purifying the blood of all morbid and corrupt matter, and at the same time strengthens and invigorates the whole system. Salt Rheum will positively yield to the medicinal powers of this remedy, in conjunction with Hall's Rosemary Cerate, it has cured cases of over twenty years standing, the disease covering nearly the whole surface of the body.

MERCURIAL DISEASES are all diseases arising from lead, mercury, and arsenic, such as aching pains in the bones, dimness of sight, low fevers, and worst of all, mercurial Rheumatism, are relieved by one bottle of this remedy. Night sweats, wasting of flesh, spitting of blood, habitual constipation, and piles—thousands can testify to the efficacy of Hall's SARSAPARILLA, Yellow Dock and Iodide of Potass in the above named diseases, and purges it of impure matters, and gives a healthy tone and vigor to the whole system, building up a new constitution. As the constitution is the blood and this remedy thoroughly purifies, cleanses, and purges it of impure matters, and at the same time stimulates into healthy action the whole Visceral System, which is engaged in the manufacture of the blood, hence the health of the whole system will follow, and a

LONG LIFE with a healthy and cheerful mind—sure indications of a healthy body—can be obtained by the most delicate person, by thoroughly purging the blood in the Spring and Fall of the year, with

HALL'S SARSAPARILLA, YELLOW DOCK AND IODIDE OF POTASS.

Imitations. Owing to the great and unparalleled success of the remedy, hundreds of unprincipled persons seek to palm off on the public, worthless trash called by the name of Hall's SARSAPARILLA, and which contains neither spirit, mercury or arsenic.

Sold by Druggists and Dealers everywhere for \$1, and by the proprietors,

R. HALL & CO.,
581 and 582 Clay str., San Francisco

DR. WM. HALL'S BALSAM FOR THE LUNGS IS HIGHLY RECOMMENDED BY CITIZENS WHOSE NAMES AND RESIDENCES WILL BE FOUND IN THE PAMPHLETS, GIVING EVIDENCE OF ASTONISHING CURES OF CONSUMPTION, BY USING THIS MEDICINE

GIVE IT A TRIAL. REDINGTON & CO., AGENTS, 416 AND 418 FRONT STREET, SAN FRANCISCO.

IN TIME OF HEALTH PREPARE FOR SICKNESS.—It is preposterous to think that because we are in health, disease will never overtake us. How many have gone forth in the morning and returned home to lay down upon beds of sickness for months! We would remind our readers, that, for a family medicine, nothing can equal

VILL'S BLOOD AND LIVER SYRUP. Of Humors it is a sure exterminator. Scrofula and Cancer, Rheumatism and Neuralgia, are all cured by this magical remedy. REDINGTON & CO., Agents, 416 and 418 Front street, San Francisco, dec 4-6m

TO THE PEOPLE OF THE State of California, Oregon, and adjacent Territories:

THE SUBSCRIBER ONE OF YOUR EARLIEST settlers of California, and for the most of his time engaged as a journalist, and particularly of late in a Journal devoted to the chief resources of the Pacific States, respectfully submits the following plan and proposition for the purpose of bringing forth a new and complete history of the Pacific States, and Territories, for the purpose of developing the resources of our thirty populated States and Territories, thereby reducing labor, the establishing of factories, the occupation of the millions of acres of arable land now lying dormant, and to work our mines. The benefit accruing to our Government—to the marine commerce—to the navigation—to the manufacture of the mining-conveyances and pre-destined community cannot be limited, provided the facilities are offered to such enterprise, and by the aid of the laws of our country to seek only the necessary or pecuniary aid to take him across the Pacific and Atlantic, so that he can be enabled to lay before the people of Europe a work which he has compiled from authentic sources comprising the mineral wealth of the Pacific States, including partly Mexico, Lower California, British Columbia, &c., together with a synopsis of the climate, agriculture, arts and manufactures, with interesting statistics of our imports and exports, and population. Also, the geographical position of the States and Territories, and the general laws governing mining, the Pre-emption Act, and kindred subjects pertaining to the Pacific States. The author reserves for himself the right of translating this work (which has cost him three years of his time to collect and compile) in the German and French languages.

He contemplates making the tour to the Atlantic States and Europe in February or March 1864, and will equip himself with the mineral materials, fossil remains, &c., and illustrate them by diagrams and dissections throughout the Atlantic States and Europe. Such a work which your politician has in view cannot be published in this State without an extraordinary outlay, nor have we the materials artists, or skill in engraving wood engraving. Therefore, it will comprise from 400 to 500 pages, to be handsomely illustrated with colored plates, maps, &c., quarto form. The subscriber will add thereto a complete list of all the associations and companies, especially mining companies.

He goes to Europe for the purpose of seeing all the manufacturing places, mines and metals; also to the leading mining districts and metallurgical establishments, to acquire from the best sources the latest mode of treating our rich minerals, and lay these several important features before our people through the *Mineralogical and Scientific Press*, and the work he hereby offers. But the most important subject in his mission is the inducement he will offer to the Europeans of our immensely rich mining fields and agricultural lands, together with the great advantages offered by a liberal and protective government for industrial citizens.

The Subscriber, therefore, calls upon the citizens in the Pacific States who have the interests of our new States nearest their heart, to aid him in this, and but in a noble undertaking with means. Each subscriber will be furnished with a copy of this work, which is designed to be useful in the counting house, to the professional man and adviser. The author desires to state that whatever aid or subscription he may be furnished with by the people of this State he will refund after the publication of the work, or leave the amounts to be taken out in his own way.

Respectfully submitted,
JULIUS SILVERSMITH.

GROVER & BAKER'S

Noiseless Sewing Machines!

For Family Use and Manufacturing Purposes

Prices from \$60 Upwards

Over 50,000 in Use

WE beg to assure the public that the well-known reputation of these Machines for RELIABILITY will be fully sustained, and in our rapidly increasing business the same care will be fully exercised in every department of our manufacture. Every Machine sold by us is WARRANTED IN EVERY RESPECT.

The public attention is respectfully requested to the following:

Card from the Grover & Baker S. M. Company:

The public in their eagerness to supply themselves with Sewing Machines making the Grover & Baker stitch must not forget to purchase them of the party who alone are authorized to sell them. All machines coming from the grove and in which one needle only penetrates the cloth, and having a feed which allows the material to be turned it will be infallible.

GROVER & BAKER, S. M. CO.
A Card from Elias Howe, Jr.

All persons are cautioned not to make, deal in, or use, any Sewing Machines which sew from two spools and make the stitch known as the Grover & Baker stitch, unless the same are purchased from the GROVER & BAKER SEWING COMPANY, or their Agents, or licensees, and stamped under my patent of September 10, 11.

Said Company and their licensees, alone, are legal, authorized under their own patents, and my said patent, during the extended term thereof, to make, sell and use the kind of Sewing Machines, and all others are practices upon my said patent, and will be dealt with accordingly wherever found.

ELIAS HOWE, JR.
The attention of Tailors and Manufacturers, who prefer the "lock stitch," is called to our

Improved Shuttle Machines, which are specially adapted to their requirements

TO THE PEOPLE OF THE State of California, Oregon, and adjacent Territories:

THE SUBSCRIBER ONE OF YOUR EARLIEST settlers of California, and for the most of his time engaged as a journalist, and particularly of late in a Journal devoted to the chief resources of the Pacific States, respectfully submits the following plan and proposition for the purpose of bringing forth a new and complete history of the Pacific States, and Territories, for the purpose of developing the resources of our thirty populated States and Territories, thereby reducing labor, the establishing of factories, the occupation of the millions of acres of arable land now lying dormant, and to work our mines. The benefit accruing to our Government—to the marine commerce—to the navigation—to the manufacture of the mining-conveyances and pre-destined community cannot be limited, provided the facilities are offered to such enterprise, and by the aid of the laws of our country to seek only the necessary or pecuniary aid to take him across the Pacific and Atlantic, so that he can be enabled to lay before the people of Europe a work which he has compiled from authentic sources comprising the mineral wealth of the Pacific States, including partly Mexico, Lower California, British Columbia, &c., together with a synopsis of the climate, agriculture, arts and manufactures, with interesting statistics of our imports and exports, and population. Also, the geographical position of the States and Territories, and the general laws governing mining, the Pre-emption Act, and kindred subjects pertaining to the Pacific States. The author reserves for himself the right of translating this work (which has cost him three years of his time to collect and compile) in the German and French languages.
